This document cannot be reproduced in any form or by any mechanical or electronic means, including electronic archival systems. If you have received this document by mistake, note that the reading, reproduction or distribution of this document is strictly forbidden.

CONTEXT

The Fairstone finance service payment extension has been built adhering to Magento best practice and is a classic Magento payment extension. It is built on standard Magento capabilities and features, to maximize compatibility to as many Magento 2.3 / 2.4 LUMA based installations as possible.

The current configuration and user guide assumes that the Fairstone extension was installed and that the reader is familiar with Magento 2.3 and above. The plugin installation is described in another document.

It is assumed that the reader is in possession of or have access to all required credentials and keys for Fairstone onboarding.

It is assumed the payment extension is configurable in the Magento administration backend, and a specific entry point has been created in the right hand-side menu.

INTRODUCTION

The Fairstone payment connector is a privately distributed Magento connector. It interacts with the Fairstone Payment Gateway through a REST API to obtain the list of plans and to record the shopper's selection. Upon installation, the merchant must enter a key provided by Fairstone that uniquely identifies the merchant. That key must be stored on the platform to be retrieved and used during plan selection. The connector is integrated within the online store by the merchant. Once configured, it is presented as a payment option at checkout. The connector then fetches the available payment plans for the merchant, order amount and language through the API. The payment plans and their product SKUs¹ are returned. This allows the app to fetch the admin fee to be charged for any plan selected by the shopper. Once selected, the invoice is modified to reflect the admin fee along.

Once the shopper confirms the payment plan and checks out, UI control is given to the Fairstone payment gateway. The shopper will authenticate, authorize and confirm the purchase. Upon completion, UI control is relinquished back to Magento. The payment gateway will return an authorization token used to uniquely identify the purchase. It will also send an asynchronous message through a webhook specified by the connector to provide the official status of the transaction.

¹ Mapping of SKUs is the responsibility of the Merchant and Fairstone.

1

ADMIN / FRONTEND SHOP CONFIGURATION

The administrator needs to login to the Magento administration interface as it is usually done.

Figure 1 Login to Admin panel

1.1

Manage fee

Once logged in, the administrator will see that standard Magento dashboard. If no Admin fee has been defined, an info message is displayed where admin can click on the “Create Fee” link and automatically be redirected to Admin management page:

Figure 2 Dashboard Validation message

To manage fee admin should go to Fairstone tab > Manage fee:

Figure 3 Manage Fee tab

1.1.1 Add/edit/delete admin fee

There are 4 required fields on the Fee management page:

- English Admin Fee Name
- French Admin Fee Name
- Admin Fee without taxes
- Plan Payment SKU
- Tax Class (Section 5)

A screenshot of the Fee Management page in the Fairstone Magento admin. The sidebar includes icons for DASHBOARD, FAIRSTONE (highlighted), SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled "Fee Management" and shows a table with 2 records found. The table columns are: ID, English Admin Fee Name, French Admin Fee Name, Admin Fee without taxes, Plan Payment SKU, Tax Class, and Action. The first record (ID 5) has Admin fee EN1, Admin fee FR1, 5.00, adminFeeSku1,adminFeeSku2,adminFeeSku3, Taxable Goods, and Select. The second record (ID 6) has Admin fee EN1, Admin fee FR2, 10.00, adminFeeSku4, adminFeeSku5, adminFeeSku6, Taxable Goods, and Select. The page also includes a search bar, a button to "Add a new fee", filters, and pagination options (20 per page, 1 of 1).

Figure 4 Fee Management page

To add fee, admin should click on the “Add a new fee” button, fill out all fields and save:

The screenshot shows the 'New Fee' configuration page. On the left is a vertical sidebar with icons and labels: DASHBOARD, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS. The main area has a header 'New Fee' with a search icon, a notification bell, and a user profile 'natalia.kopitsia'. Below the header is a 'Fee configuration' section with five input fields: 'English Admin Fee Name' (with placeholder 'Name of the fee in English'), 'French Admin Fee Name' (with placeholder 'Name of the fee in French'), 'Admin Fee without taxes' (with placeholder 'Enter the amount of additional admin fee (f.e.12.29)'), 'Plan Payment SKU' (with placeholder 'SKU which will be received from Fairstone API with credit plans'), and a 'Tax Class' dropdown set to 'Taxable Goods'. At the bottom right is a red 'Save Fee' button.

Figure 5 New Fee page

To delete and/or edit Admin fee admin can select option on Fee management table for specific Admin fee:

The screenshot shows the 'Fee Management' page in the Magento Admin interface. The left sidebar contains links for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Fee Management' with a search bar and user info. A red button 'Add a new fee' is at the top right. Below it are 'Filters' and 'Columns' buttons. A message '2 records found' is displayed. The table lists two records:

ID	English Admin Fee Name	French Admin Fee Name	Admin Fee without taxes	Plan Payment SKU	Tax Class	Action
5	Admin fee EN1	Admin fee FR1	5.00	adminFeeSku1,adminFeeSku2,adminFeeSku3	Taxable Goods	Select
6	Admin fee EN1	Admin fee FR2	10.00	adminFeeSku4, adminFeeSku5, adminFeeSku6	Taxable Goods	Edit

A context menu is open over the first row (ID 5), showing 'Select', 'Edit', and 'Delete' options. At the bottom, there's a copyright notice and links for Magento ver. 2.4.1, Privacy Policy, and Report an Issue.

Figure 6 Edit/Delete Fee

Admin Fee can have several Plan Payment SKUs:

This screenshot shows the same 'Fee Management' page as Figure 6, but with a red underline highlighting the 'Plan Payment SKU' column for the first record (ID 5). The rest of the interface and data are identical to Figure 6.

Figure 7 Admin Fee. Plan Payment SKU

After a user selects the Fairstone payment method, choose an appropriate plan at the payment page on FE, the authorization code from Fairstone is assigned to the user.

To verify the Fairstone authorization code, navigate to Admin > Sales > Order > column “authorization code”:

The screenshot shows the Fairstone Admin interface for managing orders. On the left, a sidebar lists various modules: DASHBOARD, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main area is titled "Orders" and displays a grid of 127 records found. The columns include: Actions, ID, Purchase Point, Purchase Date, Bill-to Name, Ship-to Name, Grand Total (Base), Grand Total (Purchased), Status, Action, Allocated sources, Authorization Code, and Braintree Transaction Source. The "Authorization Code" column is highlighted in blue, indicating it is the current focus. The "Status" column shows entries like "Canceled" and "Processing". The "Action" column contains links such as "View" and "Edit". The "Braintree Transaction Source" column shows unique transaction IDs for each order.

Actions	ID	Purchase Point	Purchase Date	Bill-to Name	Ship-to Name	Grand Total (Base)	Grand Total (Purchased)	Status	Action	Allocated sources	Authorization Code	Braintree Transaction Source

Figure 8 Orders. Authorization code column

To view Notes for an order (authorization code and payment status), the administrator should click on the action “View” (see Figure 8)

The screenshot shows the Fairstone Admin interface for an order with ID #2000000140. The left sidebar includes links for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area displays the Order Total and Notes for this Order. The Notes section shows the Status as Canceled and a Comment field. Below the comment field are two checkboxes: 'Notify Customer by Email' and 'Visible on Storefront'. A 'Submit Comment' button is present. To the right, the Order Totals table provides a breakdown of charges:

Order Totals	
Subtotal	CA\$120.00
Admin fee EN1	CA\$5.00
Shipping & Handling	CA\$5.00
Total Tax	CA\$6.00
Grand Total	CA\$136.00
Total Paid	CA\$0.00
Total Refunded	CA\$0.00
Total Canceled	CA\$136.00

Below the notes, two log entries are shown:

- Nov 30, 2020 11:09:41 AM | Processing | Customer **Not Notified**
Authorization code from payment gateway: TX-443df069d8bb5bbf9ba5433b912f18e9f302024
Payment status: failed
- Nov 30, 2020 11:08:52 AM | Processing | Customer **Not Notified**
Authorized amount of CA\$136.00.

Figure 9 Order's Comments

If the Fairstone payment method has not been properly configured with the authorization code, the Authorization code will not be displayed in Admin > Sales > Order > column “authorization code”.

1.2 Manage permissions for admin fee administration and configuration.

To add restrictions for managing fee admin can create new user roles with specific permissions. The admin should navigate to the System > User roles:

Figure 10 Admin Fee. User Role

To add a new role, the admin must click on the “Add new role” > Fill name > Role Resources > Custom > Fairstone.

The following are the default permissions available:

- Fairstone (active/disabled Fairstone tab)
 - Manage Admin Fee (add/update/delete)
 - Save and Update Admin Fee
 - Delete Admin Fee
 - View Admin Fee (only view data grid with Admin fees)
 - Manage payment Plan
 - Save and update Payment Plan
 - Delete Payment Plan
 - View Payment Plans
 - Configure Calculator

Fairstone Retail Procedures

© 2020,™ Fairstone Financial Inc. | Proprietary and Confidential Financial and Commercial Information.

The screenshot shows the Fairstone admin interface for role management. On the left is a sidebar with icons for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, and Reports. The main area has tabs for Role Information, Role Scopes, and Role Resources. The Role Resources tab is active, showing a 'Role Users' section and a 'Roles Resources' section. The 'Resources' tree under 'Roles Resources' is expanded, showing nodes like Dashboard, Fairstone, Manage Admin Fee, Manage Payment Plan, and various sub-options. A red box highlights the 'Fairstone' node.

Figure 11 Admin Fee. Roles Resources

If no permissions have been selected, a corresponding information / error message will be shown to the administrator user, should s/he try to access the Faristone tab in the dashboard. See Figure 12 below.

The screenshot shows the Magento Admin interface with a 'Not Access' page. The sidebar has icons for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, Reports, and Stores. The main content says 'Sorry, you need permissions to view this content.' Below it is a 'Next steps' section with three bullet points: 'If you think this is an error, try signing out and signing in again.', 'Contact a system administrator or store owner to gain permissions.', and 'Return to [previous page](#)'. At the bottom, there's a footer with the Magento logo, 'Copyright © 2020 Magento Commerce Inc. All rights reserved.', 'Magento ver. 2.4.1', 'Privacy Policy', and 'Report an Issue'.

Figure 12 Not access page

1.3

Frontend Behavior. Manage Fee

When the user selects Payment plan – the system implicitly selects the corresponding SKU. When the user selects the Payment plan in the Shop FE, the server searches for the Admin fee with the corresponding SKU. Subsequently, the shop FE displays the Admin fee to the users in the Order Summary section. Details on Taxes and configuration of these for the Admin fee is described in Section 5.

The screenshot shows the LUMA storefront's payment page. At the top, there is a navigation bar with "Welcome, Natalia Kopytsia! EN". Below the navigation is the LUMA logo. A progress bar indicates the user is at the "Review & Payments" step, with "Shipping" completed. To the right is a search bar and a shopping cart icon showing 5 items.

The main content area is titled "Payment Method". It shows two options: "Check / Money order" (unchecked) and "Fairstone" (checked). Under "Fairstone", it says "My billing and shipping address are the same" (checked), followed by a dropdown menu showing "Test Test" and "test421424, test421424, test421424" with "Canada, Saskatchewan SK S7L3T4" and "Canada +380505841531". Below this, it says "Details of plan selected: Buy Now. Pay Later" and "Pay CA\$0.00/month for 9 months at 0% Promo APR". There is also a link "SELECT ANOTHER PLAN".

To the right is the "Order Summary" section, which lists the following items:

Line Item	Description	Amount
Cart Subtotal		CA\$240.00
Admin fee EN1		CA\$5.00
Discount		-CA\$48.00
Shipping		CA\$25.00
Flat Rate - Fixed		
Tax		CA\$19.20
Order Total Incl. Tax		CA\$241.20
Order Total Excl. Tax		CA\$222.00

Below the summary, it says "5 Item in Cart".

At the bottom right is a "Place Order" button.

Figure 13 Admin Fee on the Payment page

2 PAYMENT METHOD CONFIGURATION

To manage the Payment method configuration, the admin needs to access the Fairstone tab > Payment method Configuration:

Figure 14 Payment Method Configuration

Alternatively, the admin can access via :

- navigate to the Stores > Configuration > Sales > Payment Methods > Fairstone:

A screenshot of the Magento 2 Admin Panel under Configuration > Sales > Payment Methods > Fairstone. The left sidebar shows categories like General, Catalog, Security, Customers, and Sales. The main panel shows 'Merchant Location' with 'Merchant Country (website)' set to Canada. Below it, 'RECOMMENDED SOLUTIONS:' lists 'PayPal Express Checkout' and 'Braintree Payments (by GENE Commerce)'. Each solution has a 'Configure' button. The top right of the page shows user information and a 'Save Config' button.

Figure 15 Fairstone payment method configuration

To activate Fairstone Payment Method on FE Shop, the admin user needs to complete the following :

- Enabled Fairstone Payment - Yes
- Choose Environment (Staging or Production)
- Merchant Key, Merchant Hash, Secret
- Click on the “Text Connection” button

The admin user can also change the name of Payment Method in the Title field:

The screenshot shows the Mageplaza Configuration interface. On the left, there's a sidebar with various menu items: DASHBOARD, FAIRSTONE (which is selected), SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The main area has a title 'Configuration' at the top right with a 'Save Config' button. Below it, there's a 'Delivery Methods' section with 'Google API' listed. Under 'Payment Methods', 'Fairstone' is selected. The configuration details for Fairstone include:

- Enable Fairstone Payment [website]: Yes
- Debug mode [website]: Yes (with a note: Log request and response data into log file (var/log/fairstone.log))
- Title [store view]: Fairstone2
- Environment [store view]: Staging
- Merchant Key [store view]: (redacted)
- Merchant Hash [store view]: (redacted)
- Secret [store view]: (redacted)
- A 'Test Connection' button.
- A 'Payment method logo' section with a 'Choose file' button (No file chosen) and notes: Allowed file types: jpg, jpeg, gif, png, svg. Max file size: 100 MB.

Figure 16 Merchant connection configuration

Should the Merchant Key, Merchant Hash, Secret not be specified or not be valid / correct, the following message will be displayed in the dashboard:

Figure 17 Inform message related to Payment Method Configuration

By following the link *Payment Method Configuration*, the Admin can update the Fairstone credentials.

2.1 Frontend Behavior. Payment Method

A customer user access the merchant shop via the merchant domain. A customer may be offered to create a shopping user with the merchant, in which case they are prompted to sign-up for this. This is likely to not be a mandatory step.

The screenshot shows the LUMA merchant shop login page. At the top, there is a header with a 'Default welcome msg!' link, 'Sign In' or 'Create an Account' buttons, and a language selector 'EN'. Below the header, there is a search bar with the placeholder 'Search entire store here...' and a magnifying glass icon. The main content area is titled 'Customer Login'. It has two sections: 'Registered Customers' and 'New Customers'. The 'Registered Customers' section contains fields for 'Email *' (with value 'nataliiaakopytsia@gmail.com') and 'Password *' (with value '*****'). It also has 'Sign In' and 'Forgot Your Password?' buttons. The 'New Customers' section contains a 'Create an Account' button and a note: 'Creating an account has many benefits: check out faster, keep more than one address, track orders and more.' At the bottom, there is a note: '* Required Fields'.

Figure 18 Login or create a merchant shop user

If configured, a Fairstone payment plan is teased on the eligible products on the Product listing page and the Product detail page:

Figure 23 Admin Fee for the selected Payment Plan

When the customer confirms the purchase intention, by placing the order, s/he is redirected to the Fairstone payment gateway and corresponding process. The below is included for completeness, and is not functionality in scope of or managed via the Magento Fairstone payment extension.

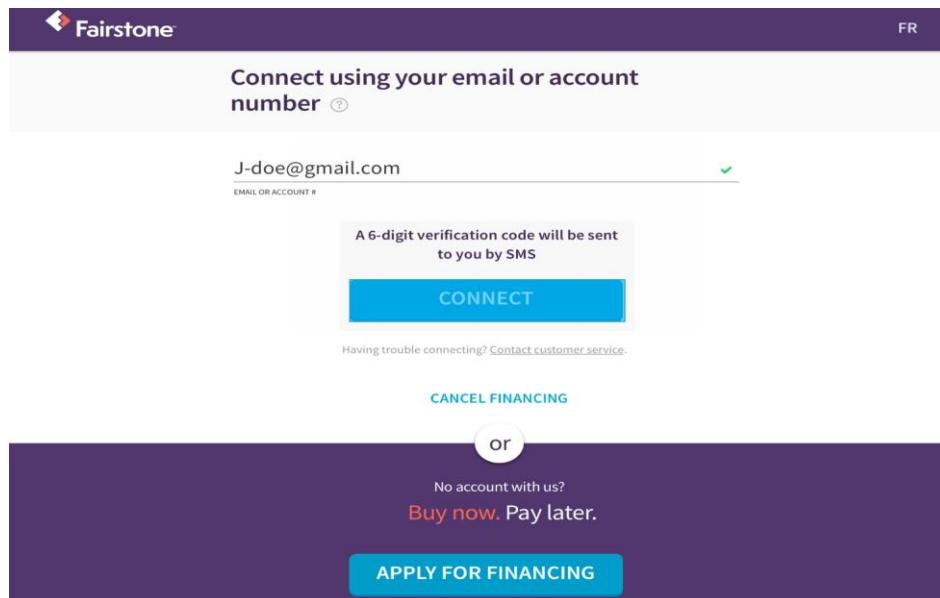

Figure 24 Redirect to Fairstone side

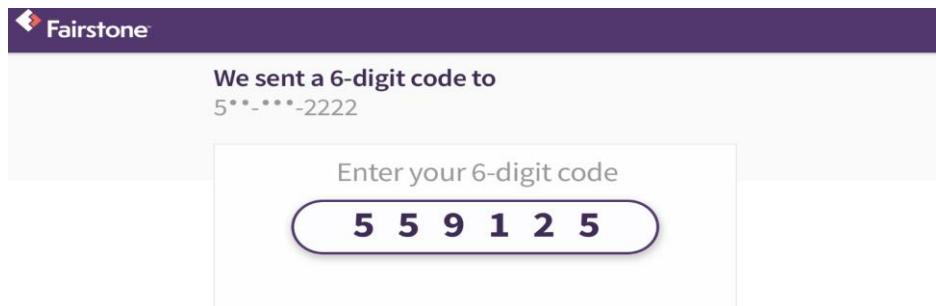

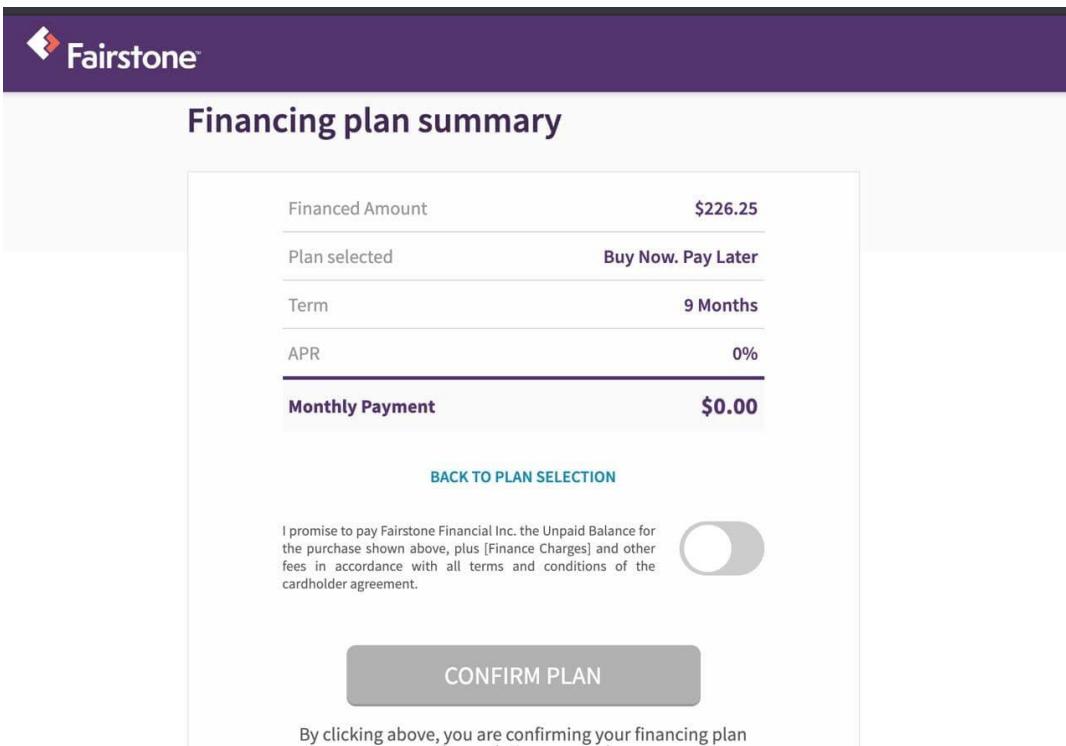

Figure 25 Validation Code

The screenshot shows the Fairstone Financing Plan Summary page. At the top, the Fairstone logo is displayed. Below it, the title "Financing plan summary" is centered. A table provides details of the selected financing plan:

Financed Amount	\$226.25
Plan selected	Buy Now. Pay Later
Term	9 Months
APR	0%
Monthly Payment	\$0.00

Below the table is a link "BACK TO PLAN SELECTION". To the right is a toggle switch, which is currently off. A note below the switch states: "I promise to pay Fairstone Financial Inc. the Unpaid Balance for the purchase shown above, plus [Finance Charges] and other fees in accordance with all terms and conditions of the cardholder agreement." A large "CONFIRM PLAN" button is centered at the bottom of the summary section.

Figure 26 Financing plan summary

Following successful payment confirmation, Fairstone re-directs back to the merchant magento store, showing the merchants confirmation page.

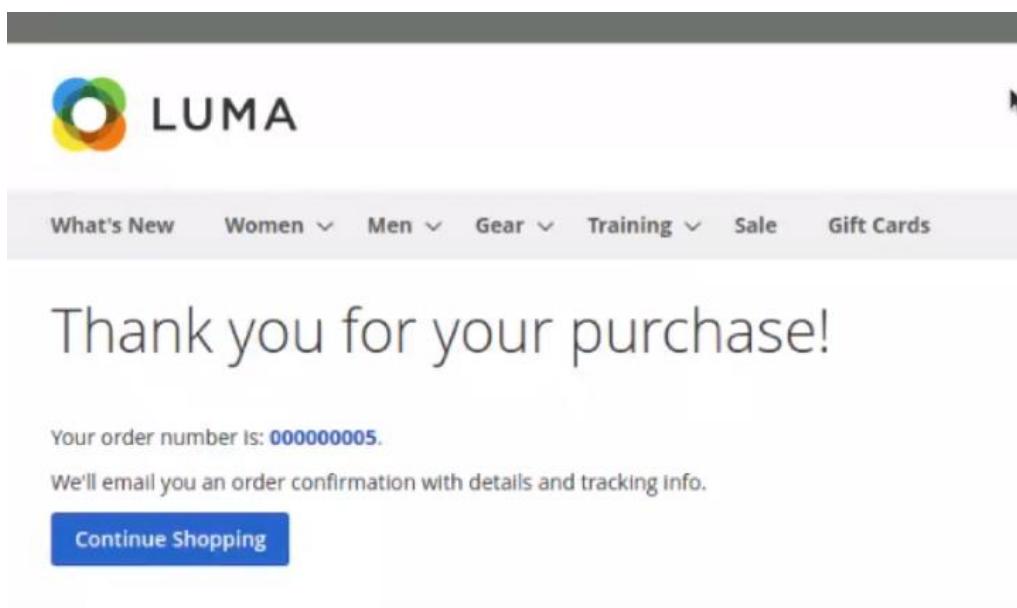

Figure 27 Successful order page

2.2

Upload Merchant logos

It is possible to customized the merchant+Faristone payment method logs. To upload logos, the admin user navigates to:

- Admin > Faristone > Payment Method Configuration

Figure 28 Payment Method Configuration tab

- Scope > Default Config

A screenshot of the Magento Admin Configuration page. At the top, there's a yellow banner with a warning message: "One or more of the Cache Types are invalidated: Configuration, Page Cache. Please go to Cache Management and refresh cache types. System Messages: 1". The main title is "Configuration". On the left, a sidebar lists categories: DASHBOARD, FAIRSTONE (highlighted with a yellow box), SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. In the center, a "Scope" dropdown is set to "Default Config" and shows a list of scopes: "Default Config", "Main Website", "Main Website Store", "EN", "FR", and "FAIRSTONE Stores Configuration". The "Main Website Store" scope is highlighted with a yellow box. Below this, there's a "Merchant Location" section with a "Merchant Country" dropdown set to "Canada" and a note: "If not specified, Default Country from General Config will be used." Under "RECOMMENDED SOLUTIONS", there's a "PayPal Express Checkout" section with a "Configure" button and a "Check out with PayPal" link.

Figure 29 Configuration for specific website store

- Fairstone > Payment method logo:

To upload a new logo, the user admin clicks on the “Choose file” button, followed by “Save config”.

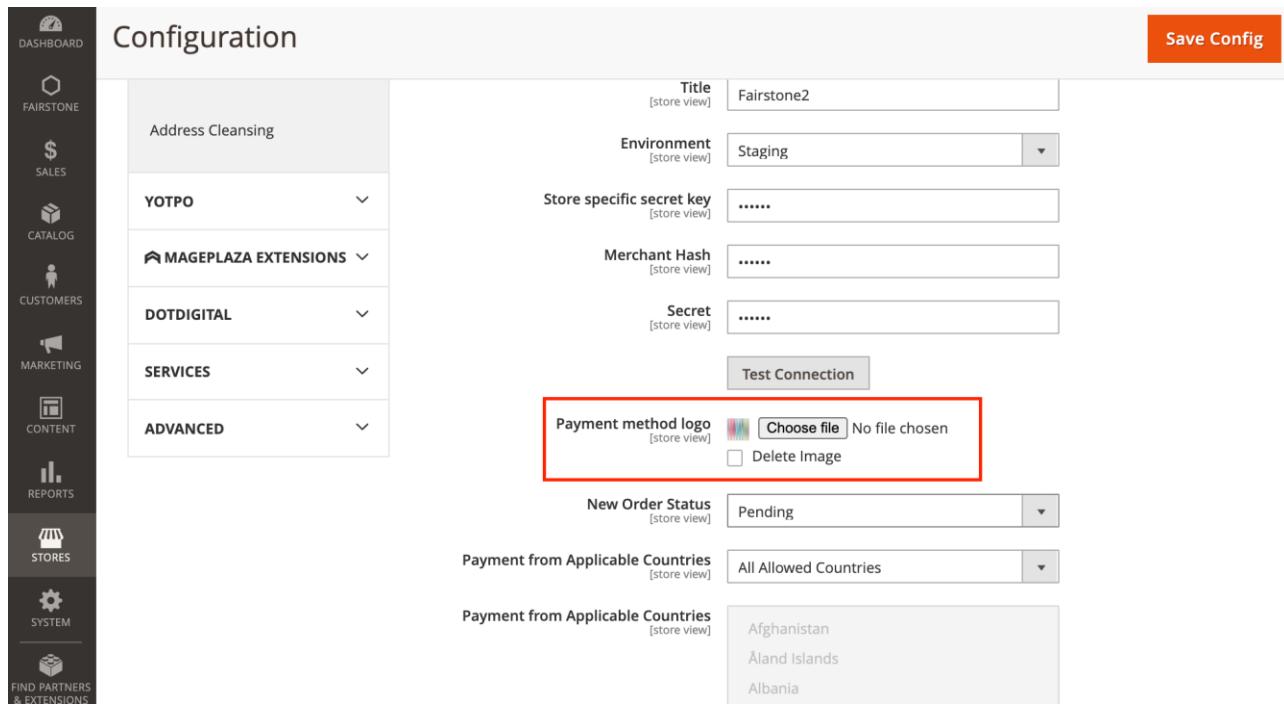

Figure 30 Payment method logo configuration

The system should now show the new logos in the Shop frontend, e.g. as illustrated below, in the Checkout:

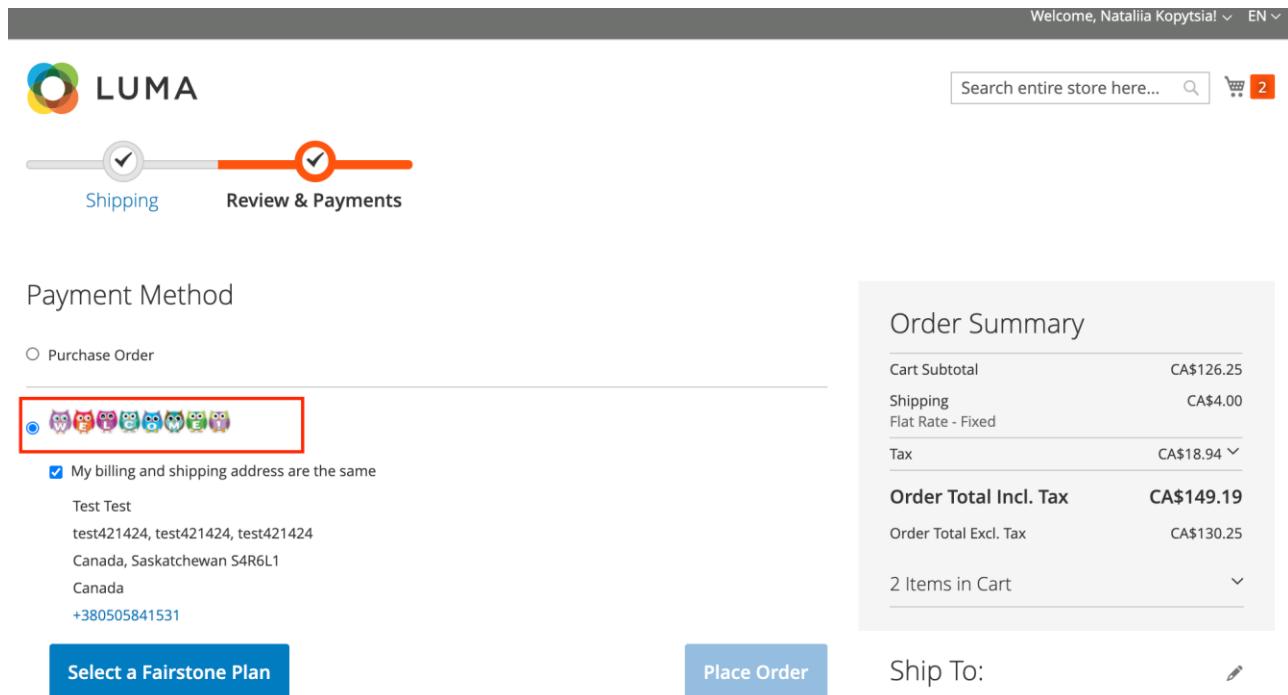

Figure 31 Payment logo on FE shop

To delete a custom logo, the admin user simply checks the “Delete image” checkbox and confirms with “Save config”:

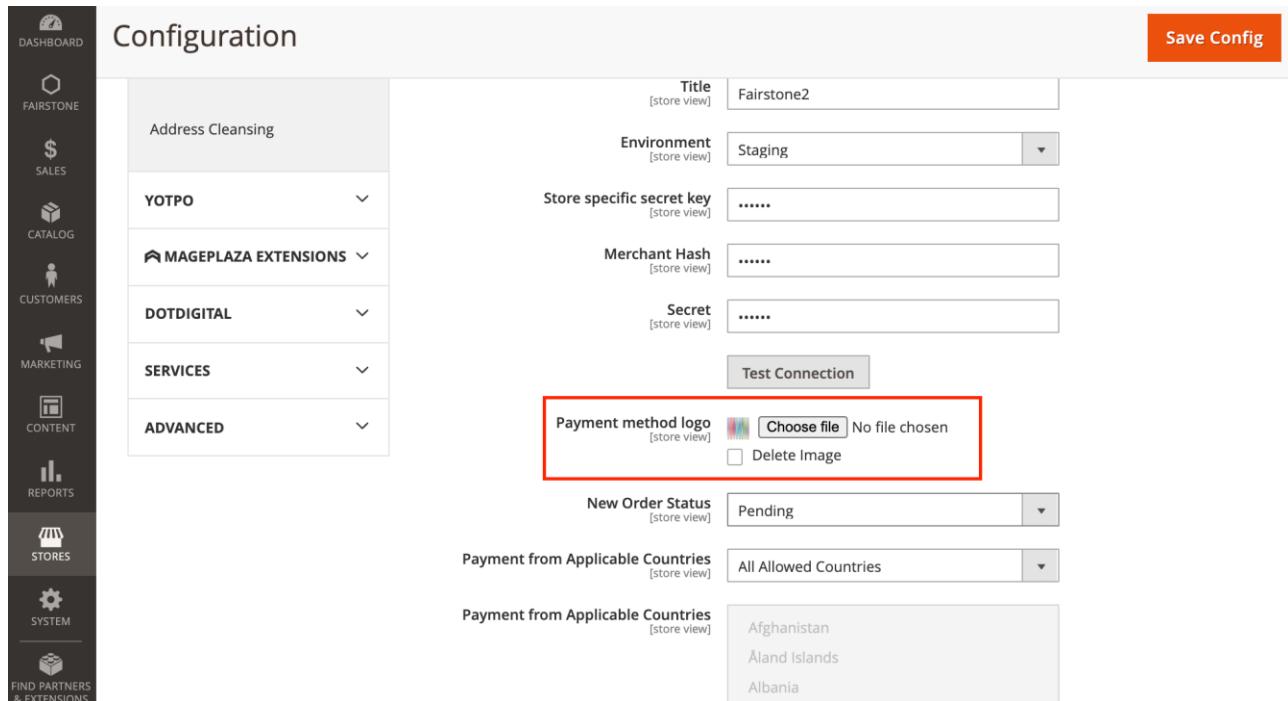

Figure 32 Deletion Payment Method logo

If there are no custom logos, the default Fairstone logo will be displayed on FE Shop Checkout:

The screenshot shows a storefront interface for 'LUMA'. At the top, there's a dark header bar with 'Welcome, Natalia Kopytsia! EN'. Below it is a navigation bar with a search bar ('Search entire store here...'), a shopping cart icon ('2'), and other links. The main content area shows a progress bar with two steps: 'Shipping' (grey) and 'Review & Payments' (orange). The 'Review & Payments' step is checked. Below the progress bar, the title 'Payment Method' is displayed. There are two options: 'Purchase Order' (radio button) and 'Fairstone' (radio button, highlighted with a red box). Below these are buttons for 'Apply Discount Code' and 'Apply Gift Card'. To the right, a sidebar titled 'Order Summary' provides details about the cart:

Order Summary	
Cart Subtotal	CA\$126.25
Shipping Flat Rate - Fixed	CA\$4.00
Tax	CA\$18.94
Order Total Incl. Tax	CA\$149.19
Order Total Excl. Tax	CA\$130.25
2 Items in Cart	

Figure 33 Default logo for Fairstone Payment Method

To upload different custom logos for English and French locale, admin user must upload corresponding images to both the EN and FR locales, and save the configuration.

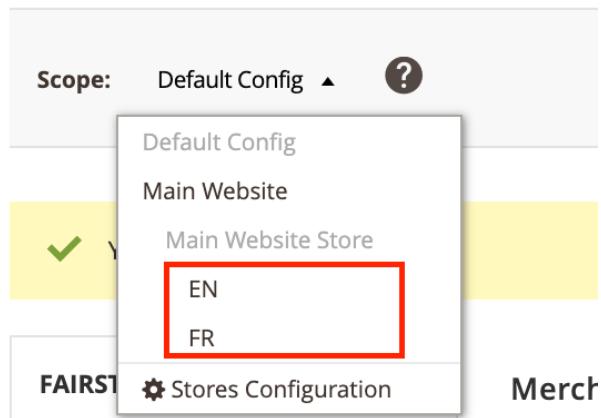

Figure 34 Upload Logo for specific locale

3 MANAGE PAYMENT PLANS

3.1 Add/edit/delete Payment Plan

An Admin user with access (link to roles), can Add/Edit/Delete Payment Plans.

The screenshot shows the 'Payment Plan Management' page. On the left is a vertical sidebar with icons for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, Reports, and Stores. The main area has a title 'Payment Plan Management' and a search bar. A red button at the top right says 'Add a new Payment Plan'. Below is a table with 5 records found. The columns are: Min Value, Max Value, Down Payment Duration(months), Is Active, and Action. The data is as follows:

Min Value	Max Value	Down Payment Duration(months)	Is Active	Action
30.00	59.99	2	Yes	Select
60.00	499.99	6	Yes	Select
500.00	4999.99	24	Yes	Select
5000.00	7000.00	32	Yes	Select
7000.01	10000000.00	64	Yes	Select

At the bottom are buttons for 'Filters', 'Columns', '20 per page', '1 of 1', and navigation arrows.

Figure 35 Payment Plan Management page

To create a new Payment Plan, navigate to Admin > Fairstone > Manage Payment Plans > Add a new Payments Plan. There are mandatory fields needing to be filled out:

- Minimum value
- Maximum value
- Down Payment Duration
- Is Active

The screenshot shows the 'New Payment Plan' configuration page. On the left is a vertical sidebar with icons for Dashboard, Fairstone, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, and System. The main area has a title 'New Payment Plan' and a 'Save Payment Plan' button. Below is a section titled 'Payment Plan Configuration' with fields for Minimum Value, Maximum Value, Down Payment Duration, and Is Active. The 'Minimum Value' field has a note: 'Enter the minimum value of payment plan (f.e.10.29)'. The 'Maximum Value' field has a note: 'Enter the maximum value of payment plan (f.e.120.29)'. The 'Down Payment Duration' field has a note: 'Down payment duration(in months). Use 0 to define the minimum threshold below which the calculator does not display on the PDP / PLR'. The 'Is Active' field has a note: 'If 'Is Active' = Yes, the payment plan will be available in 'Payment Plan' product attribute'.

Figure 36 New Payment Plan

Fields Min Value and Max Value should not be overlapping or duplicated. The same value cannot be the max value for the previous plan and min value for the next plan.

3.2

User roles. Permissions for Payment Plan

Access/restriction for Admin related to Payment Plan configuration can be set up by navigating to Admin > System > User Roles > Role Resources > Custom > Fairstone
Permissions relevant for Manage Payment Plan can be found here:

- *Fairstone (active/disabled Fairstone tab)*
 - *Manage Payment Plan (add/update/delete)*
 - *Save and Update Payment Plan*
 - *Delete Payment Plan*
 - *View Payment Plan (only view data grid with plans)*

The screenshot shows the 'fee_test' role configuration page. On the left is a sidebar with icons for Dashboard, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, and REPORTS. The main area has tabs for 'Role Info', 'Role Resources' (which is selected), and 'Role Users'. Under 'Role Resources', there are sections for 'Role Scopes' (set to 'All'), 'Resource Access' (set to 'Custom'), and 'Resources'. The 'Resources' section lists several items under 'Fairstone' and 'Manage Admin Fee', with a red box highlighting the 'Manage Payment Plan' section which includes 'Save and Update Payment Plan', 'Delete Payment Plan', and 'View Payment Plans'.

Activation Payment Calculator for products

To activate Payment Calculator for products, the admin user must navigate to Admin > Stores > Configuration > Fairstone > Calculation > Payment Calculator > Active:

Figure 38 Payment Calculator activation

If an the admin user chooses “Non Active”, it means that the payment calculator is not displayed in FE Shop (Product list page, Product detail page).

By default all Product types will be included in the “fairstone_payment_plan” attribute. The Admin user can also configure this manually (for example: for cases with new attribute type):

- navigate to Admin > Stores > Attribute Set > Product type (for example: Top) > Unassigned attribute

Figure 39 Attribute set tab

Set
1

Figure 40 Attribute Sets page

- drag and drop “fairstone_payment_plan” attribute to Product details
- save changes by clicking on the “Save” button

The screenshot shows the 'Edit Attribute Set Name' page in the Magento Admin Panel. The left sidebar includes links for Dashboard, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SUPPORT. The main content area has a yellow header bar with a warning message: '⚠ One or more indexers are invalid. Make sure your Magento cron job is running.' and 'System Messages: 1'. The page title is 'Top'. On the right, there are buttons for Back, Delete, Reset, and Save. The 'Edit Attribute Set Name' form has a field 'Name *' with 'Top' entered. The 'Groups' section shows a tree view of attributes under 'Product Details', with 'fairstone_payment_plan' highlighted. The 'Unassigned Attributes' section lists various attributes like category_gear, features_bags, etc.

Figure 41 Attribute "fairstone_payment_plan" for specific set "Payment Plan" attributes will now be displayed for all products with "Top" Product type.

To open Admin Product detail page admin user should:

- navigate to Admin > Catalog > Products:

Figure 42 Products tab

- open Product with "Top" attribute set:

Fairstone Retail Procedures

© 2020,™ Fairstone Financial Inc. | Proprietary and Confidential Financial and Commercial Information.

The screenshot shows the Magento Admin interface for the 'Products' section. A yellow banner at the top indicates an error: '⚠ One or more indexers are invalid. Make sure your [Magento cron job](#) is running.' On the right, it says 'System Messages: 1'. The left sidebar has a navigation menu with icons for Dashboard, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The 'CATALOG' icon is highlighted. The main area shows a search bar with 'Juliana Short-Sleeve Tee' and a filter dropdown. Below is a table with 16 records found, showing columns for Actions, ID, Thumbnail, Name, Type, Attribute Set, SKU, Price, Quantity, Salable Quantity, Visibility, Status, Websites, and Action. The 'Attribute Set' column for the first product (ID 1467) is highlighted with a red box. The table data is as follows:

Actions	ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity	Salable Quantity	Visibility	Status	Websites	Action
<input type="checkbox"/>	1467		Juliana Short-Sleeve Tee-XS-Black	Simple Product	Top	WS07-XS-Black	CA\$30.00	100.0000	Default Stock: 100	Not Visible Individually	Enabled	Main Website	Edit
<input type="checkbox"/>	1468		Juliana Short-Sleeve	Simple	Top	WS07-YC	CA\$120.00	100.0000	Default Stock:	Not Visible	Enabled	Main	Edit

Figure 43 Attribute set column on Products page

"Payment plan" attribute is displayed on the Product detail page with default value. It means that if the Product price = 30 and Payment plan with range including 30 exists and is active in the system, the Payment Calculation will be displayed in FE Shop.

The screenshot shows the 'Juliana Short-Sleeve Tee-XS-Black' product detail page in the Magento Admin. The left sidebar includes links for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area has a header 'Scheduled Changes' with a 'Schedule New Update' button. Below this, the 'Scope' is set to 'All Store Views'. Action buttons include 'Back', 'Add Attribute', 'Save', and a dropdown menu. The product details section shows the 'Payment Plan' dropdown set to 'Default' (highlighted with a red box), 'Enable Product' (set to Yes), 'Attribute Set' (Top), 'Product Name' (Juliana Short-Sleeve Tee-XS-Black), 'SKU' (WS07-XS-Black), 'Price' (CA\$ 30.00, highlighted with a red box), and 'Tax Class' (Taxable Goods). A note at the bottom right says 'Advanced Pricing'.

Figure 44 Attribute Payment Plan on PDP in Admin

The screenshot shows the 'Payment Plan Management' page in the Magento Admin. The left sidebar is identical to Figure 44. The main area has a yellow header bar with a warning: '⚠ One or more indexers are invalid. Make sure your [Magento cron job](#) is running.' and 'System Messages: 1'. Below this is a search bar and user info. A large orange button says 'Add a new Payment Plan'. A table lists five payment plans with columns: Min Value, Max Value, Down Payment Duration(months), Is Active, and Action. The first row (Min Value: 30.00, Max Value: 59.99, Duration: 2 months, Active: Yes) is highlighted with a red box. Other rows show ranges from 60.00 to 5000.01 with durations of 6, 24, 32, and 64 months, all marked as active.

	Min Value	Max Value	Down Payment Duration(months)	Is Active	Action
<input type="checkbox"/>	30.00	59.99	2	Yes	Select ▾
<input type="checkbox"/>	60.00	499.99	6	Yes	Select ▾

Figure 50 Payment Plan calculator for configurable product on PDP

Data from the cheapest product will be displayed on Product list page:

Figure 51 Payment calculator for configurable product on PLP

3.8 Apply now link. Configuration

Admin User can manually configure the “Apply now” URL on the Product detail page:

Figure 52 Link Apply Now on PDP

To edit the “Apply now” link, the admin navigates to Admin > Stores > Configuration > Fairstone > Calculator > URL Link:

Figure 53 Configuration for “Apply now” link in Admin

3.9

Apply now link. Permissions

To add restrictions to the Configure Calculator, the admin can create new user roles with specific permissions by navigating to “System > User roles”:

The screenshot shows a dark-themed application interface with a vertical sidebar on the left containing icons and labels for various modules: DASHBOARD, FAIRSTONE, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The SYSTEM icon is highlighted with a red box. The main content area has a header "Data Transfer" and "Support" with sub-links like Import, Export, and Import/Export Tax Rates. Below this is a section for "Permissions" with sub-links for All Users, Locked Users, and User Roles. A red box highlights the "User Roles" link. Further down are sections for Action Logs, Tools (Report, Cache Management, Index Management), and Bulk Actions.

DASHBOARD	Data Transfer	Support	Other Settings
FAIRSTONE	Import	Data Collector	Notifications
SALES	Export	System Report	Custom Variables
CATALOG	Import/Export Tax Rates		Manage Encryption Key
CUSTOMERS	Import History	Permissions	
MARKETING	Scheduled Import/Export	All Users	
CONTENT	Extensions	Locked Users	
REPORTS	Integrations	User Roles	
STORES		Action Logs	
SYSTEM	Tools	Report	
	Cache Management	Archive	
	Index Management	Bulk Actions	

Figure 54 “Apply Now” link. User role

To add a new role, the admin chooses “Add new role” > Fill name > Role Resources > Custom > Fairstone and set up “Configure Calculator” permission.

The screenshot shows the Fairstone platform's role management interface. On the left is a dark sidebar with various menu items: DASHBOARD, FAIRSTONE (selected), SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. Below these is a 'FIND PARTNERS & EXTENSIONS' section. The main area has a header 'natalia.kopytsiaplan' with a search icon, notifications (1), user info, and a dropdown. Below the header are tabs: 'ROLE INFORMATION' (selected), 'Role Info' (with a pencil icon), 'Role Resources' (selected, highlighted with a red border), and 'Role Users' (with a pencil icon). In the 'Role Resources' tab, there are two sections: 'Role Scopes' (with a dropdown set to 'All') and 'Roles Resources'. Under 'Roles Resources', 'Resource Access' is set to 'Custom' (with a dropdown). The 'Resources' tree view shows several categories with checkboxes: Dashboard, Fairstone, Manage Admin Fee (with sub-options for Save and Update, Delete, View), Manage Payment Plan (with sub-options for Save and Update, Delete, View), View Payment Plans, Configure Calculator (which is checked and highlighted with a red box), Analytics, API, Sales, Operations, and Orders. At the top right are 'Back', 'Delete Role', 'Reset', and a large orange 'Save Role' button.

Figure 55 Configure calculator Role Resources

4

SYNCHRONOUS/ASYNCHRONOUS CALLBACK

Synchronous callback returned “success” if the customer is redirect to the Fairstone upon placing the order in Magento. .

Should the Synchronous callback return a Failure or not at all, Magento will not be able to redirect to Fairstone side, and rather show a failure message.

To check the asynchronous callback status, navigate to the administration backend as follows: BE > Sale > Order > Select order. A successfully order will be in status “Complete” with Authorization code.

If an asynchronous callback failed, the order status will be in “Cancel” and the Authorization code field should be empty.

Open view order page, navigate to bottom. Pay attention to the comments, when we get a second comment about Payment status: “completed” means that Magento received a “success” with the asynchronous callback.

The screenshot shows the Magento Admin Order View page for order #2000000081. The page includes tabs for Back, Login as Customer, Send Email, Credit Memo, Reorder, and Create Returns. The main content area displays the Order Total, Notes for this Order (Status: Complete), and Order Totals table. Below these, there is a Comment section with a text input field and two checkboxes: 'Notify Customer by Email' and 'Visible on Storefront'. A 'Submit Comment' button is present. At the bottom of the page, there are three comments listed:

- Nov 25, 2020 2:18:53 PM | Processing | Customer Not Notified
Authorization code from payment gateway: 020082
Payment status: completed
- Nov 25, 2020 2:18:53 PM | Processing | Customer Not Notified
Invoice has been created automatically
- Nov 25, 2020 2:17:56 PM | Processing | Customer Not Notified
Authorization code from payment gateway: 020082
Payment status: completed
Authorized amount of CA\$209.00.

Figure 56 Synchronous callbacks. Comments

5 TAXES

To add/edit/delete Tax Rule navigate to Admin > Store > TAX rules:

The screenshot shows a table titled "Tax Rules" with the following columns: Name, Customer Tax Class, Product Tax Class, Tax Rate, Priority, Subtotal Only, and Sort Order. There are three records found:

Name	Customer Tax Class	Product Tax Class	Tax Rate	Priority	Subtotal Only	Sort Order
Rule1	Retail Customer	Taxable Goods	US-MI-*Rate 1	0	0	0
Retail-Canada-GST	Retail Customer	Taxable Goods	Canada-GST	0	1	0
Retail-Canada-PST	Retail Customer	Taxable Goods	Canada-SK-PST	1	1	0

Figure 57 Tax Rules page

Per default, the following Tax Rules are configured: Canada-GST and Canada-SK-PST. The Merchant admin must adjust these as well as complete configuration of the remaining tax rules for Canada.

To add: New Rules > Go to Add new Tax Rules page. At the New Tax rule page fill out all mandatory fields and Save.

The screenshot shows the "New Tax Rule" page with the following sections:

- Tax Rule Information:** Fields for Name (mandatory) and Tax Rate (mandatory). A dropdown menu lists existing rates: US-CV-*Rate 1, US-NY-*Rate 1, US-MI-*Rate 1, Canada-GST, and Canada-SK-PST. Buttons include "Add New Tax Rate", "Back", "Reset", "Save and Continue Edit", and "Save Rule".
- Additional Settings:** Buttons for Import Tax Rates (Choose File), Import Tax Rates, Export Tax Rates, and Export Tax Rates.

Figure 58 New Tax rule page

Tax Rule has the following configurable parameters, navigate to Tax Rule > Additional Settings:

- Tax rate
- Customer tax Class
- Product Tax Class

The screenshot shows the 'Tax Rule Information' page for a rule named 'Retail-Canada-PST'. The 'Customer Tax Class' dropdown is set to 'Retail Customer'. The 'Product Tax Class' dropdown is set to 'Taxable Goods'. Both dropdowns have a 'None' option available. The 'Save Rule' button is visible at the top right.

Figure 59 Additional Settings for default tax

Parameter TAX class can be configured separately, navigate to Admin > Fairstone > Manage Fee > Open any Fee. The Tax Class can be set to either None or one of the options shown in the drop down.

The screenshot shows the 'Edit 'Admin fee EN1' Fee' page. The 'Tax Class' dropdown is currently set to 'Taxable Goods'. Other options in the dropdown include 'None', 'Refund Adjustments', 'Gift Options', 'Order Gift Wrapping', 'Item Gift Wrapping', 'Printed Gift Card', and 'Reward Points'. The 'Save Fee' button is visible at the top right.

Figure 60 Tax class at the Admin Fee page

To set Zone and Rate for Taxes navigate to Admin > Store > Tax zone and Rate.

Tax Zones and Rates

The screenshot shows a table titled 'Tax Identifier' with columns for Country, State/Region, Zip/Post Code, and Rate. There are five rows of data:

Tax Identifier	Country	State/Region	Zip/Post Code	Rate
	All Countries			From _____ To _____ 5.0000
Canada-GST	Canada	*	*	5.0000
US-CA-*-Rate 1	United States	CA	*	8.2500
US-MI-*-Rate 1	United States	MI	*	8.2500
US-NY-*-Rate 1	United States	NY	*	8.3750
Canada-SK-PST	Canada	SK	*	5.0000

Figure 61 Tax Zone and Rate page

TAX = Canada-GST configured for all State/Regions, Zip/Post Codes.

TAX = Canada-SK-PST configured for Province / Territory: (in this example for) Saskatchewan. This tax will be applied only for Saskatchewan.

In this example, Saskatchewan will have 2 Taxes:

- Canada-GST
- Canada-SK-PST

To add new Tax Rate navigate to page Admin > Store > Tax zone and Rate > Add New Tax Rate:

The Tax Titles can be set for EN and FR languages.

The screenshot shows the 'New Tax Rate' form with the following fields:

- Tax Identifier: A text input field.
- Zip/Post is Range: A checkbox.
- Zip/Post Code: A text input field with a note: "* - matches any; 'xyz*' - matches any that begins on 'xyz' and are not longer than 10."
- State: A dropdown menu.
- Country: A dropdown menu set to Canada.
- Rate Percent: A text input field.
- Tax Titles: A section with EN and FR language input fields.
- Note: A yellow note at the bottom: "Note: Leave this field empty if you wish to use the tax identifier."

Figure 62 New Tax rate page

To edit created Tax Rate navigate to page Admin > Store > Tax zone and Rate, click on the Tax rate which shall be edited. After editing and saving, the new configuration will be displayed in the FE (Figure 62 New Tax rate page).

Taxes for the specific state, for instance Saskatchewan, can be also configured by ZIP code.

- variant configure Tax by using ZIP/Post in range field
- variant configure Tax by using ZIP/Post code field

If parameter ZIP/Post is specified then the configured TAX for Saskatchewan State will be displayed either for ZIP/Post in range or specified ZIP/Post code. In case the ZIP/Post is either out of range or not as specified in configuration, a purchase will have general TAX applied only.
